Attached to the data was a picture of McCarthy, and when the sergeant again turned to the young inquirer, he added: "Yes, Joseph, you're wanted. It says here that you stole \$200 of the city of Cleveland funds while you were working as a clerk on the correction farm. Do you want to give up?"

"Yes, sergeant," Joseph L. McCarthy replied. "I want to go home to my mother in Cleveland. And, sergent, I didn't do it. There were several clerks there and the money disappeared. They said they'd put it on me and I ran away like a fool. But I'm going back to face them now."

This presents a situation that is explainable on two grounds. The first is that there is no candidate to oppose him who has captured anything but minority support. The second is that there has been a marked change in the attitude toward Smith and also in the general view on the prohibition enforcement question. With the exception of the Kian group, which was defeated in the last election but which is still potentially strong, the antagonism to Smith on religious grounds is not strong, and he is being regarded as an executive, on his record, with his human qualities coming in for observation. He has lost his horns.

Enid, Okia., Sept. 28.—(P)—Evidence to show affectionate relations existed between the Rev. Charles Bailey, Episcopal minister, and Miss Mary Atkinson, 26 year old nurse, was introduced today at the preliminary hearing of the young woman on a charge of poisoning the rector's 18 year old daughter, Mary Jane.

Stewart Bailey, brother of the dead girl, testified that on more than one occasion he saw the nurse kiss his father. This was soon after the death of the minister's wife, which preceded that of Mary Jane by less than two weeks.

Jane Balley showed symptoms of having been administered an overdose of
mixed drugs. The girl died early this
month after being attended by Miss
Atkinson. The other Balley children
became mysteriously ill, but recovered.
Miss Atkinson had been a guest in the
Balley home for some time before the death of Mrs. Bailey and her daughter. The state alleges Miss Atkinson killed Mary Jane because the 18 year old girl objected to the nurse's atten tions to Dr. Bailey.

Young Bailey, answering reluctantly questions asked by the county attorney, said that he first saw the nurse kiss his father the night after his mother's funeral. The three sat on the edge of a bed and discussed plans the future, Stewart Bailey said, The son is 16. Later, the youth said, he was forced

After Seven Years ...WHAT?

DECENT surveys show that 90% of the estates of more K than \$5,000 left by Americans is dissipated in seven to nine years after the death of their creators.

Startling-but a fact! As a prudent American, you cannot ignore the question it raises: What will your family be doing-what will they have-seven years after your death, if death comes to take you from them? The further fact that 35% of American widows are in want, and 90% of that number lack even the common comforts of life, is not reassuring. But there is one unfailing solution:

This Company will issue a life insurance policy which fixes the settlement in a series of installments instead of a lump sum. These installments can be made few or many as you prefer; or for the life of the beneficiary with reversion of the residue to her heirs. In no other way can you so absolutely secure the future of those you love. Think it over.

The Missouri State Life is a nationwideinstitution. In 35 years it has become 19th in size among America's 348 Legal Reserve Life insurance companies. In the last five years it has more than doubled its insurance in force. Its new business for six

This Company writes all forms of Life, Accident and Health, and Group Insurance. Its policies are broad in coverage and free from restrictions; and its rates, as low as consistent with security and best service, are the minimum for the Utmost in Protection.

Charming Semorita Told Me bris the bully

I was visiting in Rio de Janeiro a city of splendor and enchantment. And not the least of its enchantment centers are its beautiful women.

Wherever I went I was struck by the ravishing akins of the women of wealth and leisure. My hostess was a charming Senorita I had met at a friend's home in Paris. I asked her the secret.

"We come of a long line of Spanish Grande Dames," she laughingly answered. "Their chief thought in life was the care of their skins. But seriously," she continued, "we have been taught to regard our complexions as priceless treasures and to safeguard them accordingly. We use cosmetics very sparingly, if at all. But most of us are fanatics about the soap we

For three generations the lovely Senoras and Senoritas of South America have used a soap they treasure for its luxurious and lovelifying lather.

Until recently their demands have taken every cake of it that could be made. But girls and women from this country, visiting there, have so delighted in that luxurious soap that they have begged to have it brought here. At last—thanks to enlarged manufacturing facilities—this has been done.

That long-prized complexion aid is Raquel Beauty Soap. Walgreen Drug Stores now introduce it to Chicago. It is truly a luxury soap—so exquisite and delightful to the skin, so soothing, softening, lovelifying. Yet—for the present at least—it is only 35 cents a cake; or a box of 3 long-lasting cakes for only \$1. For all personal use—face, hands, bath, shampoo.

WAYS TO MAKE MONEY

HICAGO is so accustomed to the use of superlatives, that "greatest", "biggest" and "best" have become most common words in the vocabulary of this Wonder City of the World.

Every year witnesses some event of surpassing greatness. On Thursday, Sept. 22nd, 140,000 people thronged Soldiers' Field, the greatest crowd ever assembled to witness an athletic event. Railroad presidents and motion picture artists, bank directors and tradesmen, farmers and heads of corporations, lawyers, doctors, state, city and government officials - they came from every section of the country, from the four corners of the world. And everyone went away an enthusiastic booster for Chicago, its facilities and its efficiency. Every visitor carried home with him a memory of the hospitality and warm friendship of Chicago's people.

Mayor Thompson has been called the "champion 'go-getter' of the world". His efforts in building a greater Chicago, his endeavor to bring both Republican and Democratic National Conventions here next year, and his untiring energy deserve the enthusiastic commendation and support of every citizen. Chicago is and should be the logical assembling place for every great religious, political, business, agricultural or athletic gathering of national importance. Let us bring the strangers within our gates that we may have walking delegates to spread the praise of Chicago throughout the world.

We congratulate the City Administration, the State Officials, the South Park Commissioners, the Lincoln Park and West Park Boards, the County Commissioners and the various managements upon the good work they are doing in opening new arteries of travel, providing places of recreation and civic improvements for the enjoyment alike of residents and guests.

CHICAGO LEADS THE WORLD as a railroad center, in its department stores, its electric service, its magnificent hotels, its taxicab efficiency. It stands first in the packing industry and as a stock, grain and produce center. It is the healthiest large city in the world. Its substantial buildings. banking institutions and manufacturing interests are monuments to the thrift, energy and wealth of its people.

We of Consumers Company are proud of Chicago, pro id of the contributions we have made toward its growth by supplying building materials, fuel and ice to its countless homes and industries. Consumers Company is today the largest concern of its kind in the world and our organization is constantly improving its methods and expanding to meet the increasing needs of this rapidly growing metropolia.

The tail German finished a 3,200 point exhibition match with Hoppe in New York before coming to Chicago a few days ago, but practices in a different manner from Cochran. Hagenlacher, feeling his long exhibition match has put him on edge, has been practicing only an hour or so a day.

Either is capable of averaging better than 50 points an inning and both have many long runs of 200 and 400 to their credit. Cochran's greatest asset is a growth of confidence in his game. To match that Hagenlacher never concedes defeat. He's come from behind in a dozen matches with brilliant billiards to win.

JUNIOR WORLD SERIES OPENER HALTED BY RAIN

Toledo, O., Sept. 28.—(P)—Rain forced postponement today of the inaugural game of the "Little World's series" between Toledo, champion of the American association, and Buffalo, pennant winner of the International

downpour. With all reserved seats sold, and hundreds packed around the box office windows for standing from, the commissioners in charge of the series waited until after one o'clock before deciding there was no hope of playing.

An open date for Priday in the schedule arranged for the series may permit the teams to play the first two games of the series here as planned. The Saturday and Sunday games will be moved to Buffalo regardless of the postponements here, and the teams then will return to Toledo to finish the series, with the winner needing five victories out of nine.

Welker Cochran, world's 18.2 balk line billfard champion, will begin detense of his crown in Orchestra hall at 8 o'clock tonight in a 1,500 point match against Eric Hanot because of faults of generalship or friction. The Wake is satisfied, all things considered, with their showing.

The White Sox, with the material Manager Ray Schalk had at his command, did not figure with critics in other cities to stay in the first division. We hoped for such a berth for them. There are rumors that the "Cracker" may be displaced as manager. At the opening of the season The Wake said he should not be judged on his managerial ability in 1927. He took a team weakened by the absence of Johnny Mostil and other complications. He is entitled to another year's leadership, and even then he must have more playing strength under him to figure among the leaders.

Idleness yesterday on the part of the most vitally concarsed clube increased the prospects of the National league race becoming a last day thriller, such as the 1908 affair, when three teams had a finger in the pie until the last twelve hours.

The Pirates, out in front with a two game lead, did nothing because the schedule called for just that from them. The Cardinals, hanging on desperately, did nothing because rain upset them at Cincinnati, but they'll catch up by playing on the postponement today and among those looking on will be the Pirates.

Meanwhile, the Giants, three games to the had, are yapping for flag consideration, but about the only world series they'll see is one for which they'll have to buy tickets.

To secure some kinds of profit, the assuming of risk is necessary, and losses more frequent than the gains sought. But the profit which is interest may be secured without risk, as your capital is increased by simple, mathematical laws.

Good bonds are the best interest-profit securities you can buy. A 6% twenty year \$1000 bond. for instance, will return your original investment and increase your wealth by \$1200, besides. If you reinvest that interest-profit in more bonds, as it is received, your money will be much more than doubled during the life of the bond. And this without risk or speculation of any sort.

JOMFORT is possible in business. Haste and turmoil are not necessary. We Americans snift at the leisurely ways of our friends in other countries and are fond of calling ourselves hustlers and go-getters. We risk our lives to beat a railroad train over the crossing and theh stand still to watch it go by.

In this bank we have found that Order and System make for Speed and Precision. We try to save the energy of our customers. Comfort is much to be desired and it may be had without loss of efficiency and certainly without confessing the belief that haste and speed are exactly the same.

This bank is a comfortable place to do business.

Children's League Tag Day to Be Oct. 10

This Happen in

The twentieth annual tag day for the Chicago Children's Benefit league will be on Oct. 10, according to plans announced yesterday by Mra William R. Tucker, president of the league of fifty organizations devoted to the care of children. A goal of \$150,000, an increase of \$25,000 over the receipts, last year, has been set.

crease of \$25,000 over the receipts last year, has been set.

"We are asking that at least 50,000 men give a dollar each," said Mrs. Charles E. Frankenthal, chairman of the committee on public relations. "The remainder of the sum needed to meet the emergencies which all the children's benefit organizations in the city now are facing will be met by the folks who cannot afford to give a dollar."

ACTING: They don't act—they run around in circles.

STORY: Casey is a husky middle aged engineer who has a terrible and unrecipricated case on the daughter of Beamish, another engineer, who is little and crotchety and quite old [Beamish—not the daughter]. She is in love with young Sweney, son of the boss, and Beamish, of course, would like her to marry him.

Beamish and Casey are at swords' points. Finally Doris and young Swere-

at ride as you will sincerely hope you may never have anything to do with.

Cows could camp on the railroad track with never a mort from Casey's whistle—for Casey wouldn't know it.

The story is just one large and variegated scramble.

OPTIENCE REACTION: Some exceedingly hearty laughs and a lot of little, quiet ones greeted "Tell It to Sweeney." I think, on the whole, that it went over pretty well.

PERSONAL OPINION: I have dreamed things just like it and yelled for help.

See you soon!

it all the time. I wouldn't like to live there."

These are only two of many observations that I have heard children, boys as well as girls, make which go to show quite plainly that they have a sense of beauty and order.

With some of them it is conscious because they are brought up in an environment where beauty and order not only are present, but where they are conscious factors in the lives of their parents. With others it is unconscious—they become used to pleas-

conscious—they become used to pleas-ant and orderly surroundings without thinking much about them.

With still other children the sense of beauty and order, alas, remains latept because it is starved. Sometimes this lack will be evident in a whole shouse. Sometimes it will be manifest only in the children's room. In many a home the charm of deco-ration stops at the threshold of the playroom and nursery, because chil-dren "don't notice."

It is a great mistake to think chil dren do not feel these subtle things, and that when they grow up, 'they will acquire the sense quite suddenly. right: 1927: By The Chicago Trib

2 FOREIGN SPEAKING,

Positively no place for down and out, and no man should come simply regarding this as last straw proposition. If you are accepted, your first pay day would be Oct. 10, and if you cannot finance yourself up to then, do not come. If you have wild, extravagant ideas about earnings from the outset, do not come. But if you feel that you should be willing to start making \$40 or \$50 and possibly \$60 the first week, then we want you. It may take you sixty to ninety days, if you have right mettle, to get finto \$80 to \$100 a week class. Now, frankly, among our hundreds of men nationally will be found a considerable percentage making only \$2,500 to \$3,000 a year. But others with same commission, same opportunity, same backing, make twice that and often more. Right here in the Chicago territory we are paying our men about \$700,000 this year. That averages around \$4,000 a man, but there are some \$12,000 men in this work, and a good many making around \$7,000 to \$8,000 yearly. Now and then a man starts right out and earns at that rate almost from first day, but YOU may not do so, and if we told you that you positively would and you earned half that, or say \$40 to \$50 your first week, you would be discouraged—yet many of our best earners came up in their profits gradually from a low start—some even making much less than \$40 their first week. with good reference and willing to work, will find big opportunity to make money with us; salary, commission, and bonus; selling in city; learn a profession that will assure lifetime employment.
